The Graduate School at The Ohio State University specifies that at least 80 total earned hours are required for a Doctoral Degree. Please complete the information below and list the courses you plan to use to fulfill your degree requirements.

- The requirements below are only minimums. Your Faculty Advisor can require additional coursework beyond the minimum.

- Students who started their degree program after Summer 2018 must earn a grade of C or better for it to be used to satisfy their program's course requirements. While a course in which a grade of C- or lower is earned will not fulfill a MAE program requirement, the course grade will be calculated in the student’s CPHR and will appear on the student's transcript.

- In order to count toward your degree, courses taken outside of Engineering, Natural and Mathematical Sciences, or Medicine must be approved by your advisor and the Graduate Studies Committee via a MAE program petition.

- Designate your math course with an ‘M’ in the Special Designations column.

- Include any graduate courses transferred from other institutions and identify them with a ‘T’ in Special Designations column. Ohio State’s coursework requirements must still be met, but approved transfer credits can count toward those requirements.

### Coursework Requirement Notes:

- For BS-PhD students up to 3 hours may be 4000+ non-departmental courses as long as the Math and the 6000+ requirements are still met.

- ** A course being used to satisfy the Math requirement cannot be used to satisfy the other letter graded PhD coursework requirements.
