Clinical Faculty Position in Nuclear and Mechanical Engineering
Department of Mechanical and Aerospace Engineering
The Ohio State University

The Department of Mechanical and Aerospace Engineering at The Ohio State University (OSU) invites applications for a clinical faculty position at the level of Assistant/Associate Professor. Targeted expertise areas are nuclear reactor systems, nuclear power plant operations and nuclear engineering design, as well as thermal-fluid systems in general.

Qualifications

Ph.D degree in mechanical or nuclear engineering, with experience in practical applications. The successful candidate will teach undergraduate and graduate level courses in mechanical and nuclear engineering, advise and mentor students and develop and support thermo-fluid laboratory experiments for undergraduate students. Screening of applications will begin as soon as they are received, with the intent of having the faculty member in place at OSU early during the 2015-16 academic year. Interested candidates should upload their complete curriculum vitae, statement of teaching goals, and the names and addresses of four references to http://www.mecheng.osu.edu/faculty_positions.
